## Education

---

### California State University, Fullerton

**B.S. Computer Science** | Current GPA: 3.70 | Expected Graduation: May 2025

Relevant Coursework:

- Lower Division: CPSC 120 - Intro to Programming, CPSC 121 - OOP, CPSC 131 - Data Structures, CPSC 223P - Python Programming, CPSC 240 - Comp Org and Assembly, CPSC 253 - Cybersecurity.
- Upper Division: CPSC 332 - File Structure & Database, CPSC 335 - Algorithm Engineering, CPSC 386 - Intro to Game Design, CPSC 351 - OS Concepts, CPSC 362 - Software Engineering.

## Projects

---

### Knight's Quest | Unity, C#

- 2D Platformer video game project developed solo in Unity.

### SportSpot | Firebase, Java, Git, Android Studio | [github.com/Zaldaas/SportSpot](https://github.com/Zaldaas/SportSpot)

- App to set up and find pickup sports events, currently being developed in Android Studio in Java.

### AI Flashcards | Next.js, Firebase, OpenAI, Stripe, Clerk | <https://github.com/Belalaskaik/-AI-Flashcards-Stripe>

- Website which can generate a series of flashcards based on user input using OpenAI, with subscription tiers available for more advanced features managed by Stripe and Clerk.

### College Database | SQL, PHP, HTML, Linux

- Database created using SQL, PHP, and HTML in a Linux environment to allow students and professors to view course and grade information.

## Technical Skills

---

- Languages: C/C++, C#, Python, Assembly, Java, Javascript, PHP, SQL, HTML, CSS.
- Web Development: React, Node, Firebase.
- Miscellaneous: Git, Unity, Linux, Android Studio, VS Code, Windows, AutoCAD, Rhino3D, Sales.

## Experience

---

### Tutor

**Study Hut Tutoring** | Newport Beach, CA | September 2024 – Present

- Provide one-on-one tutoring in various academic subjects, with a focus on advanced mathematics, biology, and chemistry to K-12 students in a relaxed and supportive environment.
- Deliver personalized academic support tailored to individual needs, helping students excel in their subjects.
- Create a fun and engaging learning atmosphere while maintaining organizational skills and a proactive approach to student progress.

### Software Engineering Fellow

**Headstarter AI** | Remote | July 2024 - September 2024

- Developed key projects using technologies such as HTML, CSS, DNS, ReactJS, NextJS, Firebase, OpenAI, AWS, Authentication, Stripe API, RAG, and Vectors.
- Acquired practical experience in AI-driven solutions, web development, and the integration of cutting-edge technologies.
- Created AI-powered web applications using RAG with Llama, OpenAI, and Gemini API integrations.
